

# Shadows of a Princess: Diana, Princess of Wales 1987-1996 - An Intimate Account by Her Private Secretary

An explosive account of the life of Diana, the late Princess of Wales, from the man who was by her side throughout the most turbulent period of her life. In 1981, Lady Diana Spencer was seen by many as the salvation of the hidebound Windsor line. As the beautiful, modest, virginal wife of the future King Charles III, she seemed the perfect face for a 21st century Royal family. But Diana didn't follow the script. Instead she brought a revolution. Twenty years later the comforting illusion of Royalty as we knew it has gone forever. Diana is dead, the Windsors marginalised and a chastened Prince faces the dilemma of presenting a very different consort to his people. What went wrong? Since her death many people have come forward claiming to know the true story about Diana, in truth the reality is known by virtually none. Patrick Jephson was Dianas closest aide and adviser during her years of greatest public fame and deepest personal crisis. He witnessed the disintegration of her marriage to Prince Charles and the negotiation of the royal divorce. He assisted her as she tried to establish a new life for herself, independent from the Royal Family. Constantly on call, whether on duty or off, he not only organized her official life, but was increasingly drawn into the turmoil of her personal life. Diana will now never appoint a biographer and a formal history may never be commissioned. *Shadows of a Princess* goes further than any sanitized official record, were one ever to be permitted. It reveals the day to day life of a private Diana whose behaviour was in stark contrast to her saint-like public image. Rooted in unique first hand experience, it is an authoritative, balanced account of one of the worlds most famous and tragic women.
