

The Seventh Day of May

Jenna's life may be dire, but it's normal. Until a ghost shows up and causes chaos... OCD sufferer, Jenna Croft has it all - a house that's crumbling around her, bills high enough to rival the height of Mount Everest, and now it seems she's acquired an accidental fiancé too. Although she sees this as an answer to some of her problems, it also means Mona (The Mona) Mansfield is her prospective mother-in-law. Just when she thinks life can't get any worse, ghost Alesha literally crashes into her life. It soon becomes clear Alesha's being economical with the truth as to what she really wants from Jenna. Jenna's parents died five years ago - she blames herself. Alesha died in a separate accident on the same date - the Seventh of May. Her ex-boyfriend, Ben, blames himself too. When Alesha engineers a meeting between them, Jenna and Ben bond over their mutual guilt and immediate attraction. Can Alesha convince them to let go of the baggage they carry around, which is heavy enough to stop even the biggest plane from leaving the ground? Or are they destined to shoulder the burden for eternity?

What happened on this day in history, May 7. Undersea tunnel linking England to France has been hailed as one of the seven wonders of the modern world.
