

Thriving in the Knowledge Age: New Business Models for Museums and Other Cultural Institutions

In *Thriving in the Knowledge Age*, John Falk and Beverly Sheppard argue that museums require a radically new business model to survive the transition into the knowledge age. Only by shifting towards more personalized and community-based learning experiences can museums reverse the declining attendance figures of the twenty-first century. Written to provide clear answers to fundamental questions about the purpose and goals of the museum of the future, this visionary book is a must-have for museum professionals and trustees.
